Come in!

Make yourself at home

Thank you for your interest in our warm and welcoming home. Restored from a 19th century country house, this home provides a spacious, relaxing and comfortable environment in which our residents feel safe, secure and, most importantly, at home.

Here, our care team provide an excellent level of care and support, promoting enablement and quality of life.

We offer single occupancy accommodation in 59 tastefully furnished bedrooms, each with a 24-hour call alert system.

All rooms can be decorated with personal furniture and mementos, making your new home unique and comfortable for you. There are also

telephone and television points in many rooms and many enjoy views over our beautiful gardens. Full lift access and wheelchair-friendly access make it easy to move around throughout the home.

The great achievement, for us, is creating a home that focuses on residents and provides them with a warm, homely, secure and stimulating environment. We focus on creating a friendly, happy and vibrant atmosphere, that's what makes Wheatlands a special place to live and work.

We would welcome the opportunity to let you see our home for yourself, in a personal tour. To arrange a visit, or to find out more about the care we provide, please call us on 01324 814561.

“ The best thing about Wheatlands is that there's plenty of space to have free movement and lovely gardens.”

Home from home

Wheatlands care home is a community of caring people – staff, residents and relatives alike – all working together to provide a warm, compassionate and comforting environment.

We know that it can be a big decision to leave somewhere that has been your home for many years, but the team here are passionate about making this your home from home.

We aim to provide the flexibility and comfort you've enjoyed previously, surrounded by stimulating company and a wide range of activities, but also with the knowledge that, if and when you need support, professional and caring people are here for you.

Passionate about care and well-being

The team create an environment based on respect and dignity and provide a holistic approach to individual care needs.

We understand that everyone is unique, with different likes; dislikes; needs and wants. We therefore tailor our approach and service based entirely on each person. Before

moving in, we'll conduct an individual assessment and create a care package that meets your needs; this is continually reviewed and re-assessed.

As well as any clinical needs, our review will also include learning about your existing hobbies and interests, and discussing new activities you may like to try.

Activities

Events, day trips and activities play a big part of life at Wheatlands. We always work with residents and staff to identify new activities that will appeal to people.

We regularly hold classes and offer activities suitable for all abilities. These vary and may include seated exercises, entertainment with regular shows, quizzes and concerts; hobbies, such as arts and crafts, flower arranging, painting and card making; and games.

We know that activities help improve overall physical strength and mental well-being which is why we have a regular calendar of meaningful activities, which family and friends can also participate in; so there's bound to be a lot that appeals.

Person-centred care

The most important aspect of care is the people who deliver it and I take pride in knowing that every member of my team is determined to deliver the best possible care and support, which promotes your independence, whatever your needs.

Here at Balhousie Wheatlands, we can cater for the individual needs of those requiring residential, nursing and respite care; and residents with particular needs associated with Alzheimer's and dementia care.

Our residents are able to enjoy a warm and happy atmosphere, in a beautiful traditional building, while being looked after by a genuinely enthusiastic and caring team. My team is fully trained to meet the requirements of residents with specific care needs and undergo regular development programmes. Our approach is to improve the quality of life for the resident and to reduce the natural worry, anxiety and concern of family and friends.
